

## ADDRESS MY DEATH

Closed are your eyes when open is my heart...

Deeper are my eyes hollow is your heart...

Winking is your eyes thudding in my heart...

'Wake my heart', I say

The wreath is what you bought...

Hold on, I say

'It's the time!' You say.

'Breath in me once', I say

You just left unsaid

I wanna love you further', I die

Time never heals

Wounds grow grave

I never visited the dead.

I never kissed the dead.

I never liked the burning incense sticks living behind ashes.

I never liked the white flowers kept on the dead.

I'm scared of the cold they bear.

I'm sacred of the lamentations I listen to.

I wish their heart gain the beat once and for all.

I hate the prayers people mumble without faith.

But when I'm laying there all before you

Never cry over my body

Never kiss me so hard I'm almost half the way

I'm might come back then

I might miss you then

Coz' I am not there I am behind you all  
Closer to my belongings, longing to leave  
I carry black moon and dark branches of my stars  
Scared to be alone  
Coz' I wish I retain my vision to see forth  
Who wails over my demise?  
I wish my heart retain the last few beats  
I could console my beloveds  
I remember the curse  
Love was never merciful to bring a smile to my face.  
The evil spell, that I shall never deserve love  
I shall never find one either from blood or from the soul.  
'Never the girl shall receive love through words, action, and gaze'.  
Maybe I was born to be aloof.  
Love from you deceives me,  
When you are near me I am endorsed.  
I can't explain my overwhelming heart.  
I remember the spell upon me.  
I start to run away from you  
My heart that always wanted you by my side.  
I always hear the blood rushing through my veins,  
I've felt the warmth of your love  
That one barrier between us...  
I wish I could have fought for you,  
But I'm fragile not a little bit a lot more.  
The reasons remain hindrances  
But my love was unconditional,

**Irrevocable but the fear of losing  
Evermore painful than being happy for infinity.  
Laying frozen here I am taking all those infinite  
Together we shall take the vows of celestial lovers.**
