

TO WHOMSOEVER IT MAY CONCERN

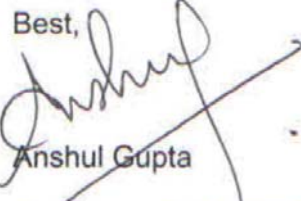

I here certify that Mr. Surya Prakash has been working in ProGate GATE Coaching Centre since March 2013 to present as a Guest faculty. He is expertise in teaching various subjects which includes Digital Circuits, Analog Circuits, VLSI Circuits & Design, Analog Device, Electromagnetics, Communications etc.

I found him sincere, responsible and self-motivated towards his work. His analytical and contemplative attitude indicates the inclination towards teaching. He is very hard working with innovative ideas and who has selflessly contributed significantly as a team mentor in many classroom activities.

He has contributed many fruitful ideas right from the nascent stage of the work, which not only reflects his interest in teaching but also in-depth understanding of the subject. He is very spontaneous in coordinating with his colleagues and many times he has taken lead for new experiments.

As a person, his teaching skills are excellent and he is extremely humble with very pleasing behavior. I am confident that he will be a valuable asset to research centers / institutes. Her impeccable hardwork will bring his glory and success which he rightly deserves. He is talented, hardworking young teacher/researcher and is able to work independently. He is much focused and takes efforts towards achieving his goals.

I wish him all success in all his future endeavors.

Best,

Anshul Gupta
