Type of Music at SoundCrave Music Studio

Western Music:-

Western music may be defined as organized instrumentation and sound created and produced in Western Countries and shaped by European immigrants. This includes a wide assortment of musical genres & instruments such as Guitar, Drums, Piano, Flute, Violin, Cello, Bass, etc., with a wide range of music style such as Pop, Ballad, Rock & Roll, Blues, Jazz, Reggae, etc.,

Indian Classical Music:-

The Indian classical music is one of the ancient musical traditions in the world and is the base for many other music genres. As per the Vedas, most of the Indian arts, music and culture are related to Hindu gods and goddesses. The most important thing about Indian classical music is that it is very detailed and revealing in nature. The two important genres of Indian classical music are Carnatic music and Hindustani music.

SoundCrave Music Studio offers:

Courses Provided For

- **Guitar**

Whether you want to play like the guitarist from your favorite rock band, be able to jam with friends, or just enjoy making music on your own, our guitar lessons are just right for you. We don't mind if you are a beginner, intermediate, or advanced student. All of our private guitar lessons are customized to your level, style, and pace of learning. Our guitar teachers have a comprehensive approach and will teach you all of the basics to playing the guitar, including locating notes on the guitar, fingering, chords, strumming and picking technique, and how to read music to tailor their guitar lessons for you.

- **Drums**

Drum students will learn on our state-of-the-art Acoustic / Electric drum kit and will understand the basics of keeping a steady beat, how to properly hold drumsticks, and how to jam to different styles of music. Whether you are interested in playing drums with pop music, rock, or other styles, our drum teachers can help. Our drummers will also have the opportunities to play in a small band setting and jam in a group that they will learn during drums lessons.

- **Keyboard / Piano**

We teach beginner, intermediate, or advanced piano students of all ages. Our piano teachers start from the basic note reading techniques and learning how to read both treble and bass clef to play with both hands simultaneously during piano lessons. This ensures the most comprehensive foundation for music learning.

- **Indian/Western Vocals**

Our singing instructors will teach you proper voice technique, and include a variety of voice training in the voice lessons, including vocal projection, posture, breathing, diction, range extension, vibrato, and other techniques. All of our teachers have different vocal styles, so whether you are looking to learn how to sing Indian Classical, Western or another style, one of our voice instructors can help. Beginner, intermediate, and advanced students are welcome to try singing lessons.
