Notes

In SBC 28 Nakshatras are applied. In addition to 27 Nakshatras, Abhijit is also considered. But this Nakshatra is not considered while fixing the benefic Nakshatras from Janma Nakshatra, i.e. 2nd, 4th, 6th, 8th, 9th, & malefic Nakshatras from Janma Nakshatra, 3rd, 5th, 7th. It is also not considered for fixing the years of life, i.e. 1st Nakshatra indicates first year of life & 27th Nakshatra indicates 27th year of life. Again the first Nakshatra

indicates the 28th year of life. Similarly Dasa & Antardasa of Grahas occupying 2nd, 4th, 6th, 8th, 9th Nakshatra from Janma Nakshatra of native must be examined. Dasa of such Grahas is always benefic.

Rising and combustion of Grahas (Uday & Ast)

Rising of Grahas (Uday)

- ॐ Sy Always rising (Uday), never combust or retrograde.
- ॐ Ch Always rising (Uday), never combust or retrograde.
- ॐ Ra Never rises, always retrograde.
- ॐ Ke Never rises, always retrograde.
- ॐ Ma It is considered as rising when not combust.
- ॐ Bu It is considered as rising when not combust.
- ॐ Gu It is considered as rising when not combust.
- ॐ Sk It is considered as rising when not combust.
- ॐ Sa It is considered as rising when not combust.

Combustion of Grahas (Ast)

	<u>Longitude for combustion</u>	<u>Period of combustion</u>
ॐ Ch	Within 12° to Sy	-
ॐ Ma	Within 17° to Sy	12 days
ॐ Bu	Within 13° to Sy	36 days
ॐ Bu (R)	Within 12° to Sy	16 days
ॐ Gu	Within 11° to Sy	30 days
ॐ Sk	Within 9° to Sy	15 days
ॐ Sk (R)	Within 8° to Sy	9 days
ॐ Sa	Within 15° to Sy	36 days
ॐ Ra	Within 15° to Sy	
ॐ Ke	Within 15° to Sy	

Retrogradation of Grahas

Usually when Ma, Gu & Sa are in 5th, 6th, 7th or 8th Bhava from Sy, these Grahas become retrograde. When Graha is 180° from Sy, it gets maximum power. During a year these Grahas are retrograde as under:

Grahas	Period of retrogradation
Sa (R)	140 to 142 days
Gu (R)	120 to 122 days
Ma (R)	80 to 82 days
Sk (R)	42 to 45 days
Bu (R)	24 days
Ra (R)	365 days
Ke (R)	365 days
Uranus (R)	150 days
Neptune (R)	159 days
Pluto (R)	160 days

Retro Graha may remain retrograde in a Nakshatra from start to the end of a Nakshatra. Retrogradation is 100 % when Graha is in the center. Malefic Grahas when retrograde become more malefic & cruel, whereas benefic Grahas are considered more benefic.

Retrograde motion

- ॐ Sy Always normal speed. Never retrograde or high speed.
- ॐ Ch As above.
- ॐ Ra Always retrograde in motion.
- ॐ Ke Always retrograde in motion.
- ॐ Ma May be direct (normal or high speed) or retrograde.
- ॐ Gu May be direct (normal or high speed) or retrograde.
- ॐ Sa May be direct (normal or high speed) or retrograde.
- ॐ Sk May be direct (normal or high speed) or retrograde.
- ॐ Bu May be direct (normal or high speed) or retrograde.

- ॐ Direct motion - normal speed Front Vedha.
- ॐ Direct motion - high speed Left Vedha.
- ॐ Retrograde motion Right Vedha.

It may be indicated here that the speed of above Grahas is never fixed. It goes on changing from time to time &

How to determine speed - a simple method

Sy's position from a Graha	Assumed speed of a Graha
Sy in 1 st Bhava	Retrogradation of Bu / Sk is possible.
Sy in 2 nd Bhava	Fast motion.
Sy in 3 rd Bhava	Normal motion.
Sy in 4 th Bhava	Normal being slow.
Sy in 5 th / 6 th Bhava	Retrograde motion.
Sy in 7 th / 8 th Bhava	Retrograde motion.
Sy in 9 th / 10 th Bhava	Fast motion.
Sy in 11 th / 12 th Bhava	Fast motion.

Norms for Sk & Bu

- ॐ Sk & Bu in 2nd Bhava from Sy Retrograde.
- ॐ Sk & Bu in 12th Bhava from Sy Fast.
- ॐ Sk & Bu in 3rd & 11th Bhava from Sy Normal.

Notes

- ॐ Speed of Sy & Ch is fixed.
- ॐ Grahas having more speed than Sy / Ch may be considered as fast.
- ॐ Grahas having less speed than Sy / Ch may be considered as slow.

Exaltation of Grahas

Note

Bu's exaltation point is 15° in Kanya. Thereafter its Mooltrikona extends upto 25°. The remaining 5° of Kanya is his own Bhava. Some Sages consider entire Rasi as an exaltation Rasi & the above mentioned longitude indicates most exaltation point of these Grahas.

Navamsa Varga

In SBC special importance is given to the Navamsa position of a Graha. It is most useful to understand the micro result of a Graha. To find out the Navamsa, Zodiacal circle (Bhava Chakra) is divided into 108 equal parts of 3° 20' each. It means that each Rasi is divided into 9 Navamsa parts or it is equal to one Pada of 3° 20' each of a Nakshatra. The limit of each Navamsa in a Rasi is as under:

1 st Navamsa from	0° 00'	to	3° 20'
2 nd Navamsa from	3° 20'	to	6° 40'
3 rd Navamsa from	6° 40'	to	10° 00'
4 th Navamsa from	10° 00'	to	13° 20'
5 th Navamsa from	13° 20'	to	16° 40'
6 th Navamsa from	16° 40'	to	20° 00'
7 th Navamsa from	20° 00'	to	23° 20'
8 th Navamsa from	23° 20'	to	26° 40'
9 th Navamsa from	26° 40'	to	30° 00'

Navamsa Chakra

26° 40' to 30° 00'	9	6	3	12

Transit of Grahas

All Grahas are transiting in Zodiac circle of 360°. Grahas are moving from first Pada, Nakshatra and Rasi to next Pada etc. Their motions in a Pada, Nakshatra & Rasi are as under:

Graha	Period in Pada (approximate)	Period in Nakshatra (approximate)	Period in Rasi (approximate)
Sy	3° 20' (3 days 8 hrs.)	13° 20' (14 days)	30° (30 days)
Ke	3° 20' (60 days)	13° 20' (240 day)	30° (18 months)
Ra	3° 20' (60 days)	13° 20' (240 days)	30° (18 months)
Ch	3° 20' (6 hrs.)	13° 20' (1 day)	30° (2 ¼ days)
Ma	3° 20' (5 days)	13° 20' (20 days)	30° (45 days)
Bu	3° 20' (3 days 8 hrs.)	13° 20' (13 days 8 hrs.)	30° (30 days)
Gu	3° 20' (40 days)	13° 20' (160 days)	30° (12 days)
Sk	3° 20' (3 days 8 hrs.)	13° 20' (13 days 8 hrs.)	30° (30 months)
Sa	3° 20' (60 days)	13° 20' (240 days)	30° (18 months)

Rasi = 30° 0' / Nakshatra = 13° 20' / Pada = 3° 20'

Approximate period of transit of Grahas in different Rasis

Graha Transits in 12 Rasis

Sy	1 year
Ch	27 days 7 hrs. 43 min
Ma	1 year 10 months
Bu	1 year
Gu	12 years
Sk	1 year
Sa	29 years 6 months
Ra	1 year 6 months
Ke	1 year 6 months
Uranus	84 years
Neptune	165 years
Pluto	248 years

Impact of Grahas in transit

In SBC whole methodology of prediction is based on movement of Grahas in Rasis, Nakshatras & Padas of Nakshatras & their correct Vedha. Benefic results depend on transit of benefic Grahas on benefic Rasi & Nakshatra, especially 2nd, 4th, 6th, 8th, 9th Nakshatra from Janma Nakshatra. Benefic Graha occupying benefic Rasi or benefic Nakshatra indicates benefic Vedha.

Conjunction of Grahas in a Nakshatra during transit

When 2 or 3 Grahas conjunct during transit, the results will be as under:

- ॐ Conjunction of benefic Grahas = Benefic results.
- ॐ Conjunction of malefic Grahas = Malefic results.
- ॐ Conjunction of malefic & benefic Grahas: Results depends on victorious Graha.

Notes

- ॐ Graha in the North is considered victorious, and Graha in South is considered defeated, except Sk.
- ॐ Graha with Sy is considered as combust.
- ॐ Graha with Ch is considered in Samagam.
- ॐ Graha with Ma is considered in war - provided their longitudes are in the same Nakshatra.
- ॐ Graha in Samagam or war, whether in North or South, is victorious if in North Kranti.
- ॐ Grahas having same nature, occupying same Pada of a Nakshatra, classification of victorious Graha are not necessary. However the will of Graha having more longitude will prevail.
- ॐ Ra or Ke occupying North Kranti will be victorious.

- ॐ If both Grahas are in South Kranti, Graha in lesser longitude will be victorious.
- ॐ If both Grahas are equally strong, both Grahas will give appropriate results according to their significations.
- ॐ If both Grahas are equally strong - one is friend & other enemy - treat their impact as neutral.
- ॐ Kranti means two Grahas having the same latitude either in North or South.
- ॐ If both Grahas are in North Kranti, Graha with higher latitude is victorious.

Vedha of Grahas

In SBC speed of a Graha is of vital importance because all types of Vedhas depend on speed. Usually Grahas have following types of speed:

<u>Motion - speed</u>	<u>Vedha</u>
ॐ Direct motion - normal speed	Front
ॐ Direct motion - high speed	Left
ॐ Retrograde motion - backward motion	Right

Direct motion

When a Graha moves direct without stopping, in anti-clockwise direction, it is known as direct motion, i.e. Graha moving from Mesha to Vrisabha. Its Vedha is always front Vedha.

Types of Vedha

In SBC aspect of Grahas is considered most important, because Vedha depends on aspect, which may be direct, right or left, depending on the speed of a Graha. This aspect is different than the aspect in Vedic Astrology. Their aspect is front when in normal speed, left when in high speed & right Vedha when retrograde.

Grading of aspect

- ॐ Aspect by a benefic Graha
- ॐ Rasi occupied by a Graha

Own	Friend	Neutral	Enemy	Aspect
20.00	15.00	10.00	5.00	100 %
15.00	11.25	7.50	3.75	75 %
10.00	7.50	5.00	2.50	50 %
5.00	3.75	2.50	1.25	25 %

- ॐ Aspect by a malefic Graha
- ॐ Rasi occupied by a Graha

5.00	10.00	15.00	20.00	100 %
3.75	7.50	11.25	15.00	75 %
2.50	5.00	7.50	10.00	50 %
1.25	2.50	3.75	5.00	25 %

Notes

The above units indicate the presumed numerical strength - benefic or malefic.

Sy, Ch, Ra & Ke have fixed speed - front, right & left

In addition to above the following aspects may also be considered:

15'	60"	45"	30"	15"
20'	80"	60"	40"	20"
30'	120"	90"	60"	30"
40'	160"	120"	80"	40"
50'	200"	150"	100"	50"
60'	240"	180"	120"	60"

Note

Treat 60" = 1' & 60' = 1°.

Examples: Sy's Longitude 4^s 10° 10'
 Sy in own Rasi gets 20 points + 40' + 40".

Strength of rising or combust Grahas

Rising Grahas (Uday) Numerical strength

ॐ Sy 60

Always Uday

ॐ Ch 60

Always Uday (from 2nd of Sukla Paksha to Poornima). It reduces proportionally when it is in Krishna Paksha.

Example: Ch is in 7th Tithi of Sukla Paksha. Numerical strength will be: $60 / 14 \times 7 = 30$.

ॐ Ra & Ke 00

Never rising.

ॐ Other Grahas 60

When they are released from combustion & enter their own Rasi.

ॐ Other Grahas 00

When combust

Combustion of Grahas

Their numerical strength is always nil. However, they are combust in the following circumstances:

ॐ Ch within 12° of Sy

ॐ Ma within 17° of Sy

ॐ Bu within 13° of Sy

ॐ Gu within 11° of Sy

ॐ Sk within 9° of Sy

ॐ Sa within 15° of Sy

ॐ Ra within 15° of Sy

ॐ Ke within 15° of Sy

Strength of retrograde Grahas

In SBC a retrograde Graha is assigned special significance because of its special Vedha power & numerical strength. Here the strength of such a Graha is explained to determine its overall impact on human beings:

ॐ Calculate total number of days when a Graha is retrograde i.e. 120 days for Gu (A)

ॐ Calculate total number of days from date of start of retrograde motion to day of event i.e. 100 days (B)

ॐ Find out midpoint of total days at (A) i.e. $120 / 2 = 60$ (C)

ॐ Find out difference of total days (A) & total days upto event (B) = $120 - 100 = 20$ (D)

ॐ Presume total numerical strength = 60 (E)

Rule for determining the strength = $\frac{60 (E)}{60 (C)} \times \frac{20 (D)}{1}$

Actual numerical strength = 20

Strength of exalted Grahas

In SBC an exalted Graha is assigned special benefic & malefic powers. Here only the formula to determine the numerical strength is given. Our Sages have suggested different methods to determine the strength. Some of them are recorded below:

Rule 1: Longitude of Graha = 9 / 29° / 36'

Longitude of its debilitation = 6 / 10° / 00'

Difference = 3 / 19° / 36'

Divide by 3 = $(3 / 19° / 36') / 3$

= 36° / 32'

Rule 2: Longitude of Graha = 9 / 29° / 36'

Longitude of its debilitation = 6 / 10° / 00'

Difference = 3 / 19° / 36'

Multiply by 7 & divide by 6 = $(3 / 19° / 36') \times 7 / 6$

= 127° 52'

Strength of Graha in Navamsa Rasi

Pada of a Nakshatra indicates the correct position of Graha in the Zodiac & Navamsa.

Maximum longitude of a Navamsa is 200 Kalas (minutes). The following is an abstract table indicating the numerical strength of a Graha in Navamsa Chakra:

Longitude in a Nakshatra's Pada in Kalas (minutes)	Own Rasi	Friend Rasi	Neutral Rasi	Enemy Rasi
100'	60'	45'	30'	15'
90'	54'	40' 30"	27'	13' 30"
80'	48'	36'	24'	12'
70'	42'	31' 30"	21'	10' 30"
60'	36'	27'	18'	9'
50'	30'	22' 30"	15'	7' 30"
40'	24'	18'	12'	6'
30'	18'	13' 30"	9'	4' 30"
20'	12'	9'	6'	3'
10'	6'	4' 30"	3'	1' 30"
1'	0' 36"	0' 27"	0' 18"	0' 9"

Note

If the longitude of a Graha is more than 100' then reduce the longitude from 200' and see the numerical strength as above.

Vedha of Grahas

Methodology

After understanding nature & characteristics of Grahas, the next stage is to determine their Vedha on the five important components of the individuals. These are as under:

- ॐ Nakshatra at birth occupied by Ch
- ॐ Rasi at birth occupied by Ch
- ॐ Tithi at birth & birth day
- ॐ Consonant - first word of the native's name
- ॐ Vowel - Swara of the native's name

All these can be determined from the Janma Chakra. In case Janma Chakra is not available, decide on the basis of most popular latest name of the individual. Now follow the procedure as under.

Procedure

- ॐ Place all 9 transiting Grahas in their respective Pada of a Nakshatra & Rasi according to their longitude during transit.
- ॐ Examine their aspect on the five components, which must get Vedha, before their results can be determined.

These 9 Grahas have three types of Vedha as under:

- ॐ Sy, Ch, Ra & Ke can aspect all 3 directions. Retrograde Graha can aspect only on the right direction. Fast Graha can aspect only on the left direction. Graha with normal speed can aspect in front direction only.
- ॐ Front Vedha of a Graha can only cause Vedha of Nakshatra & Pada in opposite direction.
- ॐ Right side Vedha by a retrograde Graha can cause Vedha of all five components.
- ॐ Left side Vedha will also cause Vedha of all five components.
- ॐ Ma, Bu, Gu, Sk, Sa have Vedha in one direction only depending on their speed.
- ॐ As regards front Vedha by a Graha, some Sages suggested that this Vedha should also cover other 4 components.
- ॐ Right & left Vedha is always angular at 45° and causes Vedha of all components occupying Vargas in that direction.

Special Vedha aspect

- ॐ Graha in 4th Pada of Bharani causes Vedha of 1st Pada of Krittika and 'A' vowel (by left aspect).
- ॐ Graha in 4th Pada of Ashlesha causes Vedha of 1st Pada of Magha and 'AA' vowel by left aspect.
- ॐ Graha in 4th Pada of Visakha causes Vedha of 1st Pada of Anuradha & 'E' vowel (by left aspect).
- ॐ Graha in 4th Pada of Sravana causes Vedha of 1st Pada of Dhanishta & 'EE' vowel (by left aspect).
- ॐ Graha afflicting Ardra - Ku, Gha, Na, Chha consonants are also afflicted.
- ॐ Graha afflicting Hasta - Pu, Sha, Na, Tha consonants are also afflicted.
- ॐ Graha afflicting Purvashadha - Bu, Dha, Pha & Da consonants are also afflicted.
- ॐ Graha afflicting Utara Bhadrpada - Du, Tha, Jha, Na consonants are also afflicted.
- ॐ These consonants are not provided in SBC. Hence their Vedha may be examined in this way. These (words) consonants belong to different Padas of Nakshatras.
- ॐ Similarly Grahas occupying 4th Pada of Bharani, Aslesha, Visakha & Sravana cause Vedha of 5th, 10th, 15th, 30th Tithi & Saturday which is not possible in normal course.
- ॐ **Malefic Grahas:** Sy, Sa, Ma, Ra & Ke will cause malefic Vedha only, although they may be in their own Rasis or even exaltation Rasis. They are 100 % malefic.
- ॐ **Benefic Grahas:** Ch, Bu, Gu & Sk cause benefic Vedha only. They are 100 % benefic.
- ॐ Ch is benefic when it is waxing. Bu is benefic when it is alone, especially without any malefic Graha.
- ॐ Vedha of a Graha is of 2 types. Macro - when a Graha aspect a particular Rasi. Micro - when a Graha aspect a particular Pada of a Nakshatra. This type of Vedha is 100 % effective.
- ॐ Nakshatra to Nakshatra Vedha is less effective than Pada Vedha.
- ॐ Vedha by 2 / 3 Grahas in the same Pada - impact of victorious Graha will prevail. Ma, Bu, Gu, Sk & Sa have only one aspect at a time depending on their speed.
- ॐ Malefic Graha if retrograde becomes highly malefic - 200 %.
- ॐ Benefic Graha if retrograde becomes highly benefic - 200 %.
- ॐ Malefic Graha when it leaves Vedha Nakshatra & shift to another Nakshatra, it cannot give malefic results.
- ॐ Vedha of a Tithi in Sukla Paksha is 100 %, whereas Vedha in Krishna Paksha is only 50%.
- ॐ Each Tithi has its own consonant. So when Tithi has Vedha, the consonant is also having Vedha automatically. Similarly Rasi of Tithi is also having Vedha.
- ॐ When a Graha is causing Vedha of a particular Rasi, its vowel, consonant & Tithis are also having Vedha automatically.
- ॐ Retrograde Graha on 1st Pada of Krittika, 1st Pada of Magha, 1st Pada of Anuradha, 1st Pada of Dhanishta causes Vedha of 4 Vowels - A, AA, E & EE & Tithis - 5th, 10th, 15th, 30th & Saturday.

Grading of Vedha

Grading of Vedha on 5 Panchkas.

Vedhas on components										
Components	By benefic Grahas					By malefic Grahas				
	1	2	3	4	5	1	2	3	4	5
Aspect										
Full	1,00	2,00	3,00	4,00	5,00	0,48	1,36	2,24	3,12	4,00
¾	0,45	1,30	2,15	3,00	3,45	0,36	1,12	1,48	2,24	3,00
½	0,30	1,00	1,30	2,00	2,30	0,24	0,48	1,12	1,36	2,00
¼	0,15	0,30	0,45	1,00	1,15	0,12	0,24	0,36	0,48	1,00

- ॐ In the above chart each benefic Graha has 5 Vedha points.
- ॐ Each malefic Graha has 4 Vedha points.
- ॐ To determine the benefic or malefic influence, take the difference of both, benefic & malefic group of Grahas. The total difference will indicate the actual impact of Vedha.

Navamsa Vedha

- ॐ Every Nakshatra has 4 Padas. So all the 28 Nakshatras, including Abhijit, have 112 Navamsas in SBC. Grahas cause Vedha of these Navamsa, by their opposite (front) direction, i.e. a Graha in 1st Pada of Kritika will cause Vedha of 4th Pada of Sravana, including Pada's vowels & consonants & Nakshatra. This is known as Navamsa Vedha. It gives strong results when the Navamsa Rasi has also Vedha.

Special Vedha of Sy

In SBC, Sy has been assigned special powers to cause directional Vedha in addition to Vedha of five components. It means, when Sy occupies a direction, East, West, North or South, the whole direction is afflicted for three months, from the date of entry in that direction till it leaves the last Rasi. In this way all 12 Rasis of the 4 directions are afflicted. This type of Vedha is to be calculated from Kritika in the East. If you examine the SBC Chakra, you will find Vedha details as under when Sy occupies any Nakshatra or Rasi in that direction:

East direction

- ॐ Vedha of Nakshatras from Kritika to Ashlesha.
- ॐ Vedha of Rasis from 4th Pada of Mesha to Karka.
- ॐ Vedha of vowels – A, OO, O, LRI.
- ॐ Vedha of consonants, assigned to each Pada of a Nakshatra.
- ॐ Vedha of Tithi.

South direction

- ॐ Vedha of Nakshatras from 1st Pada of Magha to 4th Pada of Visakha.
- ॐ Vedha of Rasi from Simha to Tula.
- ॐ Vedha of vowels – AA, OO, OU, LREE.
- ॐ Vedha of consonants assigned to each Pada of Nakshatra.
- ॐ Vedha of Tithi.

West direction

- ॐ Vedha of Nakshatras from 1st Pada of Anuradha to 4th Pada of Sravana.
- ॐ Vedha of Rasis from Vriscika to Makara.
- ॐ Vedha of vowels – E, RE, AE, AM.
- ॐ Vedha of consonants assigned to each Pada of Nakshatra.
- ॐ Vedha of Tithi.

North direction:

- ॐ Vedha of Nakshatras from 1st Pada of Dhanishta to 4th Pada of Bharani.
- ॐ Vedha of Rasis from Makara to Mesha.
- ॐ Vedha of vowels – EE, REE, AEI, AHA.
- ॐ Vedha of consonants assigned to each Pada of a Nakshatra.
- ॐ Vedha of Tithi.

- ॐ Similarly when Sy occupies a particular Nakshatra, three Nakshatras before & after are afflicted by Sy including the Nakshatra occupied by it.
- ॐ Similarly when a malefic Graha afflicts any Pada of a Nakshatra (by conjunction or aspect), the consonants and vowels are also afflicted. This causes danger to life & position especially when all 5 components are afflicted.
- ॐ Similarly when one of the following vowel is having Vedha, its counterpart is also having Vedha:

Vowels having Vedha	Vowel having automatic Vedha
A	AA
E	EE
U (small)	OO (big)
RE	REE
AE	AEI
O	OU

Front Vedha

As already indicated, some Sages have recommended front Vedha of Nakshatra only. But some eminent Sages have suggested front Vedha of all five Panchkas. I suggest front Vedha of all the five components should be considered but its benefic impact is only 50%.

Special note on Vedha

Vedha means a special relationship between Graha in motion & other celestial bodies, which are fixed in the SBC of the native. Aspects by Grahas play important role in influencing human life, nations, commerce, trade, industries, agricultural products, market fluctuations. The benefic or malefic impact depends on strength of Graha, it's benefic or malefic nature, it's motion (speed), its conjunction with other Grahas - when 2 Grahas occupy same longitude in a Nakshatra or its Pada, or aspect by 2 Grahas occupying 2 different Rasis but occupying same degree in their Rasis or opposition aspect by 2 Grahas opposite each other at a distance of 180°, i.e. Sy 10° in Mesha and Sa 10° in Tula. This aspect is most dangerous.

Vedha by benefic Grahas in lucky years.

According to Astrology, 9th Bhava Lord & its occupants are lucky Grahas.

9 th Bhava Rasi	Lord	Years	Lucky business
Mesha / Vrischika	Ma	28	Iron, wool, clothes
Vrisabha / Tula	Sk	25	Sugar, cotton, clothes
Mithuna / Kanya	Bu	32	Grains, jute
Karka	Ch	24	Silver
Simha	Sy	22	Gold
Dhanur / Mina	Gu	16	Ghee, oil, yellow items
Makara / Kumbha	Sa	36	Oil, silk, shares
Ra in 9 th Bhava	-	42	Animals
Ke in 9 th Bhava	-	42	Animals, blanket, woolblack
Uranus in 9 th Bhava	-	36	Factories, machines
Neptune in 9 th Bhava	-	24	Electrical goods
Pluto in 9 th Bhava	-	44	Medicines, mines

Normal Vedha of Grahas

Sy

It has uniform speed. So it has Vedha power of aspecting all the directions - right, left & front.

Ch

As above.

Ra & Ke

These two Grahas have uniform speed and being retrograde throughout the year. Hence these two Grahas also have Vedha power of aspecting all three directions - right, left & front.

Ma, Bu, Gu, Sk, Sa

All these Grahas have no uniform speed. So they will have the Vedha power as under:

- When retrograde in transit Right direction.
- When in high speed in transit Left direction.
- When in normal speed in transit Front direction.

I may indicate here that there is some minor difference in Vedha & aspect. Aspect is usually applied in Astrology. Whereas Vedha is applied in SBC.

Forecasting methodology – future of individuals

Introduction

SBC can be successfully & scientifically applied for prediction of the individual’s future events. For this purpose carryout the following directions:

- ॐ Prepare a SBC – draw on a metal sheet or wooden plank.
- ॐ Prepare five wooden figures of Janma Nakshatra, Tithi, day, Swar / words and Rasi. In addition, place 9 figures of Janma Grahas according to their longitude.
- ॐ Place all the figures in appropriate Bhavas out of 81 Vargas indicated in SBC. Their position will clearly indicate the Panchkas position in Janma Chakra.
- ॐ Now place 9 figures of moving Grahas at the time of forecasting in appropriate Padas of Nakshatras.
- ॐ Mark speed of each Graha - direct, high speed, direct normal speed & retrograde motion.
- ॐ Decide direction of Vedha - direct, right or left.
- ॐ Decide the benefic / malefic nature of Grahas.
- ॐ Decide the numerical strength of Grahas.
- ॐ Decide whether Graha is rising, combust, exalted or retrograde.
- ॐ Decide & mark Vedha of Panchkas in SBC.
- ॐ Decide the operation and duration of benefic & malefic impact on native according to different Vedha norms.

- ॐ Decide Vedha of Nakshatra etc. by benefic Graha & its strength for imparting benefic results.
- ॐ Similarly decide magnitude of malefic results due to Vedha by a malefic Graha.
- ॐ Remember that Ch, Bu, Sk & Gu are considered benefic Grahas irrespective of their nature in Janma Chakra.
- ॐ Similarly Ma, Sy, Sa, Ra & Ke are declared malefic Grahas irrespective of their nature in natal Chakra.
- ॐ Remember front Vedha means Vedha of Nakshatra in opposite direction only.
- ॐ Remember right or left Vedha means Vedha of all the Panchkas of the SBC, including Nakshatra.

In addition SBC indicates (in outer space) 12 Rasis & Padas.

Future of individuals (Prasna norms)

A SBC can be successfully applied for predicting future of individual. The forecasting may be yearly, fortnightly or daily. For horary prediction, the methodology is described on the next page. The procedure is as under:

- ॐ Determine the actual longitude of Sy on the first day of Hindu year, first day of Tithi Sukla Paksha & Krishna Paksha and the longitude of Ch for daily prediction.
- ॐ Place Sy & Ch in the proper Nakshatra in separate SBCs.
- ॐ Place other Grahas in both SBCs as under from the Nakshatra of Sy & Ch irrespective of their actual position (longitude).

Grahas	Yearly Chakra	PN Chakra	Daily Chakra
Sy	Actual Nakshatra	Actual Nakshatra	5 th Nakshatra from Ch
Ch	do	12 th Nakshatra	Actual Nakshatra
Ma	do	5 th Nakshatra	7 th Nakshatra
Bu	do	28 th Nakshatra	10 th Nakshatra
Gu	do	17 th Nakshatra	14 th Nakshatra
Sk	do	3 rd Nakshatra	19 th Nakshatra
Sa	do	26 th Nakshatra	25 th Nakshatra
Ra	do	16 th Nakshatra	13 th Nakshatra
Ke	do	12 th Nakshatra	21 st Nakshatra

Now record Panchkas of individuals in SBC & also record above Grahas in SBC. The forecast will be astonishing but depending on the nature & numerical strength of the Vedha Graha, on those specific dates. **The Vedha results supplement the forecast indicated in SBC.**

In Prasna, find out the actual longitude of Sy & indicate its position in SBC. In addition, indicate the position of other Grahas as indicated below:

Graha

- Sy Place Sy in actual Nakshatra occupied by Sy.
- Ch Place Ch in 3rd Nakshatra from Sy's Nakshatra.
- Ma -//- 7th -//-
- Bu -//- 13th -//-
- Gu -//- 20th -//-
- Sk -//- 27th -//-
- Ra -//- 19th -//-
- Ke -//- 25th -//-

In this Chakra also record Panchkas of individuals in SBC and also above Grahas at their appropriate position in SBC. The Vedha results depend on benefic / malefic strength of Grahas.

Standard practice for Vedha in SBC

- ॐ Mark five Panchkas in SBC including Janma Lagna.
- ॐ Check up the Vedha affliction of these components by Grahas - benefic as well as malefic - all in transit.

Additional notes

- ॐ Sy is Atma & is supposed to give benefic results.
- ॐ How Sy will give benefic results, examine Janma Nakshatra & Nadi.
- ॐ Longitude of Sy & Ch is most important and benefic results are assured when benefic Grahas transit or aspect these points in SBC.
- ॐ Charan (Pada) is most important for determining the micro results, i.e. treat Nakshatra = 1 year & one Charan = 3 months.
- ॐ Ch transits a Nakshatra for 24 hours. Transit in each Pada indicates 6 hours duration. Whenever any significator along with Ch transits this Pada or malefic Graha and Markesh enters this Pada indicate benefic / malefic event during 6 hours.
- ॐ Synchronize native's Janma Chakra, Chalit Chakra & transit Chakra for micro decision. Also examine Drekkana Chakra for that time.
- ॐ Prepare Shadvargas for different activities. For marriage prepare Navamsa Chakra. Find out Graha ensuring marriage & mark in SBC.
- ॐ Exalted Grahas in natal Chakra & Navamsa Chakra are very powerful & beneficial.
- ॐ Treat Janma Nakshatra as first year of life & 27th Nakshatra as 27th year. Repeat the cycle again i.e. Janma Nakshatra will indicate 1st year, 28th year, 55th year, 82nd year of life. Find out the benefic years according to classification of Nakshatras.

- ॐ Similarly examine Dasa & Antardasa Lords. If they occupy beneficial Nakshatras, i.e. 2nd, 4th, 6th, 8th, 9th, the result are bound to be benefic.
- ॐ Synchronizing the above positions of Grahas with SBC, determine the timing of event & also micro results.
- ॐ Determination of exalted strength & Shadvarga strength is essential to determine benefic & malefic results & also their potentiality. I.e. Sy Lord of 10th Bhava in natal Chakra, occupies 12th Bhava & Sy is joined by Ma & aspected by Ra. If Sy is weak, it will give malefic results.
- ॐ Determine significations of each Graha, i.e. Ra indicate death, destruction, demotions and dissolution. Sa indicates sufferings, losses, unhappiness and failures.
- ॐ Whenever a benefic Graha aspects Punya Saham, it gives benefic & important results in that particular year, depending on Bhava occupied & owned by such a Graha.
- ॐ Vedha results from Ch's Nakshatra are valid for one year & Vedha results from Sy's Nakshatra are valid for 9 years.
- ॐ Vedha by a benefic, of Lagna & its Lord is always good.
- ॐ Grahas occupying benefic Nakshatras, i.e. 2nd, 4th, 6th, 8th, 9th, are always benefic, i.e. Gu in 7th Bhava occupying 4th Pada of Rohini in Vrisabha, Lord of 5th Bhava & occupies Pawan Nadi and aspecting 11th Bhava & 3rd Bhava. Since Gu is exalted in Navamsa, it will ensure heavy legal income from many sources.

Notes

- ॐ Benefic & malefic Grahas on a particular Nakshatra or Nakshatras of a Nadi will be considered as if they are moving on all Nakshatras of that Nadi.
- ॐ If Lord of the Nadi (Graha) is moving on a Nakshatra of the Nadi, it will give results according to the classification of Nadi.
- ॐ If benefic or malefic Graha alone move over Nadi, either with Ch or without Ch, result will not be satisfactory. If only two benefic Grahas occupy a Nadi, it is most beneficial.
- ॐ If benefic Graha along with Ch (Full) joins on Neer, Jal or Amrit, it ensures benefic results.
- ॐ If benefic Graha along with benefic Ch joins Amrit Nadi, it ensures many happy and permanent results.
- ॐ If benefic Grahas (two or three) along with one or two malefic Grahas join on Prachand, Pawan or Dehan Nadi, they give 25 % benefic results only.
- ॐ If more malefic Grahas & less benefic Grahas occupy Neer, Jal & Amrit Nadi, they give unsatisfactory results.
- ॐ If Sk & Ch occupy Neer, Jal & Amrit Nadi, they give most benefic results.
- ॐ If Sk & Ch occupy Prachand, Pawan & Dehan Nadi, they indicate only hope but no achievement.
- ॐ If Sy, Ch & Sk occupy any Nadi, they indicate realization of objectives.
- ॐ If Ch, Gu & Sk or Ch, Bu, Gu & Sk occupy a Nadi, they indicate benefic results of permanent nature.
- ॐ If Sy, Ch & Sa occupy any Nadi they indicate most malefic period.
- ॐ Any strong, retrograde or exalted Graha on Jal Nadi indicates success in efforts.
- ॐ If Grahas are strong, malefic having malefic relations indicate only malefic results.
- ॐ If fast moving Graha is ahead of slow moving Graha, on a Nakshatra, but both benefic, ensure success & happy results.
- ॐ If two or more Grahas occupy any Nadi, they give results according to Nadi's name.
- ॐ If any Graha occupies or moves on its own Nadi, it gives results according to the name of the Nadi.
- ॐ If Ma occupies or moves on any other Nadi, in addition to its own Nadi, it gives results of that Nadi only.
- ॐ If Ch along with two benefic Grahas moves in any Nadi Nakshatra, it ensures most benefic results.

Notes

- ॐ Any benefic Graha having Vedha of benefic Nakshatras, i.e. 2nd, 4th, 6th, 8th, 9th from Janma Nakshatra, benefic results are assured with full satisfaction.
- ॐ Any malefic Graha having Vedha of malefic Nakshatras, i.e. 3rd, 5th, 7th, the malefic results will increase.
- ॐ Any benefic / malefic Graha having Vedha of Janma Nakshatra, results will be according to Graha's nature.
- ॐ Janma Nakshatra may be treated as Lagna, if Vedha is caused by benefic Graha, it causes wealth, respect, position, good health etc. If Vedha is by malefic Graha, it may even cause death.
- ॐ Nakshatra are always fixed & cannot give benefic / malefic results unless Grahas transit these Nakshatras. Grahas move in Zodiac. Their influence & impact in SBC is most important.
- ॐ Nakshatra Vedha in SBC is considered most important for all types of predictions.
- ॐ Vedha of Janma Nakshatra in the same Pada by a strong malefic or two malefics may even cause death. Janma Nakshatra is the first Nakshatra of Janma, 10th Nakshatra (Karma Nakshatra) is also Janma Nakshatra, but malefic impact on this Nakshatra is much less. Similarly 19th Nakshatra (Adhana

Nakshatra) is also Janma Nakshatra, malefic impact on this Nakshatra will not cause death, but only separation from family & foreign travel.

- ॐ Vedha of Janma Nakshatra may be direct or indirect. However if Latta Nakshatras & Upagrahas Nakshatras are also synchronized, the impact of malefic Vedha will be severe.

Forecasting methodology - how to determine benefic Muhurta

Introduction

Astrology has prescribed large number of benefic Muhurtas - common for all purposes. In addition Astrology has prescribed special Muhurtas for each auspicious activity i.e. entering into a new house, marriage, buying vehicle or gold, post natal ceremonies, education, opening a new shop or starting a new business, travel etc.

In SBC when some benefic Grahas in motion transit Janma Nakshatra and other consonants of native, create most auspicious Muhurtas for all types of activities. This Muhurta should however be synchronized with auspicious Muhurta according to natal Chakra of native.

Methodology

Mark following auspicious Nakshatras in SBC of native:

Type of Nakshatras in general

Janma Nakshatras	1, 10, 19	Neutral
Sampath Nakshatras	2, 11, 20	Benefic
Vipath Nakshatras	3, 12, 21	Malefic
Kshemya Nakshatras	4, 13, 22	Benefic
Pratwara Nakshatras	5, 14, 23	Malefic
Sadhaka Nakshatras	6, 15, 24	Benefic
Naidhana Nakshatras	7, 16, 25	Malefic
Maitra Nakshatras	8, 17, 26	Benefic
Param Maitra Nakshatras	9, 18, 27	Benefic

Notes

- ॐ Above system does not include Abhijit.
- ॐ Janma Nakshatra can be determined from Nakshatra occupied by Ch.
- ॐ If Janma Chakra is not available, determine Nakshatra according to the latest popular name of native.
- ॐ Ensure benefic aspect on Janma Nakshatra, Janma Tithi, Ch Rasi, Navamsa Rasi, on a particular day. If there is no malefic aspect, it indicates 100 % success.
- ॐ If malefic Vedha is prominent, it indicates failures.
- ॐ If all four benefic Grahas are having Vedha, 100 % success is assured.
- ॐ If only Gu is causing benefic Vedha, it indicates improvement, success, gain & victory.
- ॐ If only Sk is causing benefic Vedha, it indicates happiness and romance.
- ॐ If only Bu is causing benefic Vedha, it indicates success in examination.
- ॐ If all malefic Grahas are having Vedha - 100 % failure in efforts, death & financial loss is possible.
- ॐ If Sy is causing Vedha, it indicates disappointment and tension.
- ॐ If Ma is causing Vedha, it indicates dispute, accident or death.
- ॐ If Sa is causing Vedha, it indicates serious sickness & loss.
- ॐ If Ra is causing Vedha, it indicates accident & injury.
- ॐ If Ke is causing Vedha, it indicates food poisoning.
- ॐ If Janma Nakshatra is having malefic Vedha, it indicates loss.
- ॐ If Janma Rasi is having malefic Vedha, it indicates demotion and setbacks in profession.
- ॐ If Navamsa is having malefic Vedha, it indicates failures, disappointment & death.
- ॐ Benefic & malefic Nakshatras should be clearly marked in SBC.

- ॐ When 2 / 3 malefic Grahas conjunct or aspect 1st, 10th or 19th Nakshatra, reject such a time for all important activities.
- ॐ Nakshatras at number 3, 5, 7, 12, 14, 16, 21, 23, 25 are most malefic & avoid all important activities on days, which are occupied by these Nakshatras.
- ॐ If malefic Grahas are having Vedha of Panchkas, results will be as under:
 - Marriage Marital discord & divorce.
 - Travel Never return back.
 - Medical treatment No recovery.
 - Financial transactions No recovery & loss.
- ॐ If Sy is involved in malefic Vedha Disappointments.
- ॐ If Ma is involved in malefic Vedha Death.
- ॐ If Sa is involved in malefic Vedha Financial loss.
- ॐ If Ra is involved in malefic Vedha Accident.
- ॐ If Ke is involved in malefic Vedha Poisoning.
- ॐ If malefic Ch is involved in malefic Vedha Malefic results.
- ॐ If malefic Graha / Grahas is / are strong, such a day must be avoided for all auspicious activities.
- ॐ Whenever Sy transit any direction in SBC - East, South, West or North - Rasi, Nakshatra, Navamsa etc. become combust & most inauspicious.
- ॐ Whenever any malefic Graha is causing Vedha of a particular Pada of a particular Nakshatra, whole Nakshatra become malefic & should be avoided.
- ॐ Avoid conjunction of malefic Graha on Janma Nakshatra.
- ॐ Avoid aspect of malefic Graha on Janma Nakshatra.
- ॐ Avoid Janma Nakshatra if occupied by Latta Nakshatra.
- ॐ Avoid Janma Nakshatra if happens to be a Nakshatra occupied by Upagraha.
- ॐ Avoid aspect of malefic Grahas on other Janma components.
- ॐ Avoid day on which Janma Nakshatra is occupied by Sy, Ma or Sa.
- ॐ Avoid day on which Nakshatras 10, 19, 12, 23, 16, 25 are occupied by Sy, Ma, Sa or malefic Ch.
- ॐ Avoid the day which is owned by Janma Nakshatra and is occupied by all malefic Grahas.

Another method for determining benefic / malefic Muhurta

Decide malefic sensitive Nakshatras from Sy which are owned by Upagrahas. These Nakshatras falling on a particular day are considered malefic as under. These should be avoided for all auspicious activities specially marriage:

Nakshatra on a particular day from Sy Nakshatra (Upagrahas)	Results	Worship Grahas to avoid malefic impact
Sy Nakshatra	Malefic	Sy
5 th Nakshatra from Sy's Nakshatra	Death of child	Sy
8 th Nakshatra from Sy's Nakshatra (Shoola)	Death of husband	Ch
14 th Nakshatra from Sy's Nakshatra (Sannipata)	Death of husband or son	Ma
18 th Nakshatra from Sy's Nakshatra (Ke)	Death of brother-in-law	Bu
21 st Nakshatra from Sy's Nakshatra (Ulka)	Financial loss & danger	Gu
22 nd Nakshatra from Sy's Nakshatra (Kampa)	Death of relatives	Sa
23 rd Nakshatra from Sy's Nakshatra (Bajra)	Setbacks in profession, danger from weapon, sex	Sk
24 th Nakshatra from Sy's Nakshatra (Nirghata)	Separation from family	Ra

Notes

Exclude Abhijit for counting position of Upagrahas. In addition, if Janma Nakshatra is also afflicted by malefic conjunction or aspect, malefic results will be more serious, even death. So avoid days on which the above Upagrahas Nakshatras are located & there is malefic Vedha also on Nakshatra and also Janma Nakshatra. Viz Janma Nakshatra is occupied by an Upagraha & also having Vedha by malefics.

Malefic Latta Dosh

In determining the auspicious time, avoid following Nakshatras, especially when a malefic Graha is causing Vedha:

Position of Latta Nakshatra from a Nakshatra occupied by a Graha	Behind / front for counting	Result	Results if Latta falls on Janma Nakshatra
12 th from Sy's Nakshatra (Sy's Latta)	Front	Death, defeat	Professional setbacks and loss
3 rd from Ma Nakshatra (Ma's Latta)	Front	Set backs	Setbacks, danger, death and loss
6 th from Gu's Nakshatra (Gu's Latta)	Front	Illness	Loss of relatives, separation and sufferings
8 th from Sa's Nakshatra (Sa's Latta)	Front	Danger, fear	Death, serious danger, loss, theft and sickness
22 nd from Ch's Nakshatra (Ch's Latta)	Behind	Danger, death	Setbacks, danger, travel and disease
7 th from Bu's Nakshatra (Bu's Latta)	Behind	Death of relative	Separation, loss and confusion
5 th from Sk' Nakshatra (Sk's Latta)	Behind	Setbacks	Loss of relatives, discord with wife and sex disease
9 th from Ra & Ke Nakshatra (Ra's / Ke's Latta)	Behind	Death	Financial loss and danger

I.e. if Sy is on Kritika, than it will effect Chitra, being 12th Nakshatra from its own position. Such a Nakshatra should be avoided for all purpose. In such a case when such a Vedha Nakshatra (Chitra) has malefic conjunction or Vedha by malefic Graha, it becomes very malefic.

When any Graha is retrograde, find out the position by reversing the above combinations.

Any malefic Graha in transit conjuncting or having Vedha of Latta Nakshatra, defeat, death, travel, widowhood is possible.

For counting the position of Latta Nakshatra, do not include Abhijit. Consider only 27 Nakshatras.

Forecasting methodology - Prasna

Introduction

There are several methods in Astrology to determine benefic / malefic future of an individual or of a county or a specific problem. Whenever horoscope is not available, such questions can be answered through Prasna. Prasna is frequently applied in Astrology. Similarly Prasna is applied in SBC, and correct answers can be given through SBC. SBC norms are as under:

Methodology

- ॐ Erect SBC for the moment when somebody asks a question.
- ॐ Determine first letter of the question put up by any individual.
- ॐ This letter may be treated as consonant, just like name of the individual.
- ॐ Then find out Pada, Nakshatra, owned by this consonant.
- ॐ From consonant & Pada of Nakshatra, you can decide Rasi & also vowel.
- ॐ Examine if this consonant, Pada of Nakshatra & Rasis are afflicted by any malefic Graha, transiting a Nakshatra or Rasi from where it is casting a malefic Vedha on consonant etc. If so, malefic results are bound to happen.
- ॐ If there are both benefic & malefic aspects, then mixed results are possible.

- ॐ If Rasi involved is 1st, 4th, 7th or 10th Rasi (movable), then lost item will not be recovered, a sick person may die, newborn child may not live long & success in any effort may not be possible.
- ॐ If Rasi involved is 2nd, 5th, 8th, 11th Rasi (fixed), then benefic results are indicated. Lost items may be recovered after some time, sick man will recover & success in any effort will be possible.
- ॐ If Rasi involved is 3rd, 6th, 9th, 12th Rasi (dual), then success is indicated any moment.
- ॐ If one Panchka or a Nakshatra is afflicted by two malefic Grahas from two sides, death of a sick person is possible.
- ॐ If Rasi has benefic Vedha, benefic results are possible, but depending on strength of Graha.
- ॐ If consonant is afflicted, it indicates loss of position.
- ॐ If consonant is afflicted by two sides, death is possible.
- ॐ If consonant is afflicted by two or more malefic Vedha then loss of position, death & loss of property is possible.

In addition see Chapter 18 - Dhrujaji Chakra for synchronizing the results.

Forecasting methodology - how to determine prices of commodities

Introduction

For commercial community the prices of a commodity, at a particular time & in a particular city play a very important role to determine their business success. Our ancient Sages have laid down very useful norms to determine price fluctuation through SBC. Before norms are explained, we should know important Panchkas for determining price level.

Definitions

- ॐ Country: Regions, states & cities. I.e. Bharat, Delhi state, New Delhi.
- ॐ Commodity: Dhatu, root (Moola), living things (Jiva). I.e. Gold, trees, animals / persons.
- ॐ Time: Year, month, day.

Significators

- ॐ Dhatu Sa, Ma & Ra.
- ॐ Root (Moola) Sy, Sk & Ke.
- ॐ Jiva (all type of living things) Ch, Bu, Gu.
- ॐ Country Stronger among Sa, Gu & Ra.
- ॐ Region or state Stronger among Sy, Sk & Ke.
- ॐ Town or city Stronger among Ch, Ma & Bu.
- ॐ Year Sa, Gu, Ra & Ke.
- ॐ Month Sy, Ma, Bu or Sk.
- ॐ Day Always Ch - useful for predicting daily fluctuations.

Male Grahas Sy, Gu, Ma, Ra & Ke.

Female Grahas Ch & Sk.

Eunuchs Sa & Bu.

Colors White Sk & Ch.

Red Sy & Ma.

Yellow Gu.

Black Sa, Ra & Ke.

Green Bu.

- ॐ **Commencing of year** Gu's Sankranti - when Gu enters a new Rasi or Chaitra Sukla Pratipada.
- ॐ **Commencing of month** Pratipada of Sukla Paksha.
- ॐ **Commencing of day** When Sy rises.

Notes

- ॐ Whenever year, month and date in a country are different, that date should be considered.
- ॐ Dhatu (metals) Gold, silver, iron, steel, copper, brass etc.
- ॐ Moola (root) Vegetables, fruits, herbs etc.
- ॐ Jiva (living things) Man, animals, birds, insects.
- ॐ Country Note first word of popular name and determine consonant, vowel and also determine Nakshatra, Rasi & Tithi of country.
- ॐ Commodity Similarly from first word of commodity, decide Panchkas.
- ॐ Time Similarly decide the Panchkas from the 1st Tithi and from Tithi find out the Nakshatra & Rasi.
- ॐ Sometimes consonant & vowel are same. In such cases, treat first word of most popular latest name as consonant & also vowel, i.e. Amar.
- ॐ Prepare Panchka Chakra of country, commodity & time and also Padas of their Nakshatras.
- ॐ Decide strength of transiting Grahas & their position.
- ॐ Decide Rasi Lord of the country, commodity & time.
- ॐ Decide Graha causing affliction either by aspect or conjunction.
- ॐ Total impact of benefic or malefic Vedha depends on strength of Grahas causing Vedha.
- ॐ Strength of Graha causing Vedha:

○ Rasi	Own	Friends	Neutral	Enemy
○ Benefic Grahas	100 %	75 %	50 %	25 %
○ Malefic Grahas	25 %	50 %	75 %	100 %
- ॐ Grahas are stronger when in the middle of Rasi.
- ॐ Graha if exalted, benefic / malefic strength will be three times.
- ॐ Graha if debilitated, benefic / malefic strength will only be 50 %.
- ॐ If Lord of country or commodity or time is also a Vedha Graha, impact will be 100 %, if friendly 75 %, if neutral 50 % and if enemy, impact of price variations will be 25 %.
- ॐ Synchronize relations between Lords of country, state, city, year, month, day, and commodity with actual Lords based on name of country, state, city etc. whether they are friends, enemy or neutral.

Methodology

- ॐ Now decide a particular commodity & its popular name in that city or state.
- ॐ Find out Nakshatra of the commodity & mark in SBC.
- ॐ Mark benefic / malefic relation of Grahas with Nakshatra of commodity.
- ॐ Note conjunction & Vedha of Grahas, which should always be actual - maximum within 1 degree.
- ॐ Record carefully conjunction aspect & Vedha of relevant Graha on concerned Nakshatra of commodity.
- ॐ Note prevailing price of that commodity on first day of year, month & Monday.
- ॐ Also prepare a horoscope of each date / day & study according to astrological principles.
- ॐ If malefic relation is there, price increase is possible.

Percentage of price variations can be decided as under

- ॐ Note ruling prices on a particular day.
- ॐ Divide ruling price by 20.
- ॐ Each unit will indicate price variation.
- ॐ Compare this price with prices prevailing on first day of year, month & Monday.
- ॐ Similarly record relations of Grahas, Nakshatra on any future date & determine increase / decrease by synchronizing prices one year back, one month back or Monday with current prices and accordingly determine future trend.
- ॐ Find out from 9 Grahas, total benefic / malefic influence on prices, deduct them & determine actual influence.
- ॐ Since Grahas have three types of speed, price variation is also of three types - very high, high and average.

- ॐ Now you can determine trend, either very high, high or average increase from benefic or malefic influence.
- ॐ Similarly prepare grading of previous closing.
- ॐ If there is benefic Vedha by benefic Grahas - Mandi (depression) is possible.

Another Method

- ॐ Decide starting time & closing time of prices. It may be a year or a month or a day. It means two periods - previous closing and future prices.
- ॐ Decide actual longitude of Grahas.
- ॐ Decide Vedha of Grahas according to their speed. Record speed & direction of Grahas.
- ॐ Decide actual Vedha of Nakshatra, Pada of Nakshatra, Navamsa Vedha and other Panchkas of country, time & commodity.
- ॐ Decide strength of Grahas - in own, in friend's, in enemy's, in neutral Bhava, also note if Graha is rising, combust, retrograde or exalted.

Carefully record

- ॐ Panchkas of city, time & commodity.
- ॐ Pada Vedha by 9 Grahas.
- ॐ Pada aspect by 9 Grahas.
- ॐ Strength of benefic / malefic Vedha of Pada by 9 Grahas.
- ॐ Find out difference at both times.
- ॐ Difference will indicate rise & fall of prices.
- ॐ In case any country, state or city has many names, latest name assigned to that country, state or city should be considered.

Another method

- ॐ Note prevailing price of a commodity on 2nd Tithi, after Amavasya.
- ॐ Note relation of Nakshatra of commodity & Grahas of commodity on 2nd Tithi (after Amavasya).
- ॐ Examine relation of Ch on Panchkas of commodity.
- ॐ Price will come down when Ch is bright & has benefic relation with Panchkas.
- ॐ Decide commodities from Nakshatra on which Ch is transiting on a particular day.
- ॐ Price may also fall when Ch is malefic on 2nd Tithi after Amavasya. Commodity can be decided from Ch Nakshatra on that date.

2. Latta Chakra

Some malefic sensitive points are determined with help Latta Chakra. Latta means casting a malefic influence on a particular Nakshatra, at a particular distance by a particular Graha. First prepare Latta Chakra and understand its applications.

Grahas	Sy	Ch	Ma	Bu	Gu	Sk	Sa	Ra/ Ke
Latta Nakshatra	12	22	3	7	6	5	8	9
Direction	Front	Behind	Front	Behind	Front	Behind	Front	Behind
Results	Loss of wealth	Serious danger	Death	Loss, danger	Danger to relative	Setbacks	Death & destruction	Death

Notes

- ॐ Latta means a kick by a Graha, a Nakshatra which is declared as most malefic sensitive point.
- ॐ Counting should be done from the Nakshatra occupied by each Graha either forward or backward as indicated in the above chart.
- ॐ Ra being always retrograde, backward of Ra means forward of Ra's face.
- ॐ Front indicates clockwise direction, behind means anticlockwise direction.
- ॐ Latta Nakshatra indicates only the malefic Nakshatra of the day whether the Latta is by a benefic Graha or a malefic Graha.
- ॐ In Prasna find out the Nakshatra of the day & then find out the Nakshatra occupied by other Grahas. If day's Nakshatra is influenced by any Latta Nakshatra, the results will be according to that Graha's Latta.
- ॐ In Muhurta, suppose you are planning to enter in a new house on a day which is occupied by Revati. This Nakshatra is not Latta Nakshatra from, Sy, Ma, Gu, Sa, as they do not occupy 12th, 3rd, 6th, 8th Nakshatra in forward position. Similarly Ch, Bu, Sk, Ra / Ke do not occupy 22nd, 7th, 5th, 9th Nakshatra in backward position. This means the day is benefic and Latta does not exist on that day.
- ॐ In war, Latta indicates defeat or death.
- ॐ In travelling, the native never returns.
- ॐ In marriage, the widowhood is possible.
- ॐ In Sy's Latta with Ma indicates loss of position, loss of property, loss of wealth & serious disease.

- ॐ In Sa's, Ra's or Ke's Latta on Janma Nakshatra very serious sickness is indicated.
- ॐ In Gu's Latta on Janma Nakshatra, sickness.
- ॐ In Sk's Latta on Janma Nakshatra, loss of wife.

6. Kurm Chakra

Introduction

It is most useful Chakra and helps in determining directions and places of malefic and benefic events, especially in India. This chakra is a supporting Chakra for making correct predictions according to SBC. The literary meaning of kurm is tortoise. Main purpose of this Chakra is to determine different directions belonging to different Nakshatras.

The Kurm Chakra is divided into nine zones and each zone is signified by three Nakshatras. I.e. central zone is signified by Krittika, Rohini, Mrigasira. As far as India's central zone is concerned, it denotes UP (South / West), Madhya Pradesh (Pt.), Rajasthan (Desert Area), Haryana & Gadwal. Complete details of India's zones are given in Chapter 17. Whenever Nakshatras of that zone are afflicted by strong malefic Graha, that zone & dwellers of that zone suffers. Affliction means transit of strong malefic Graha on that Nakshatra signifying a particular zone, region, state or city. If more than one malefic Graha is involved, large scale destruction of that zone is possible. Sometimes the whole direction is afflicted by malefic Grahas – Sa, Ra, Ma, Ke & Sy.

Notes

According to some Sages, counting need not be done from concerned day but remainder figure should be checked directly in Chakra, which will indicate price position. I.e. if remainder is 4, Chakra will indicate 4th number is assigned to Ra, indicating sharp rise of price of concerned commodity.
