

Class Schedule for Himani Bhandari

- 1) Correct the way she plays the piano (ie, her hand position is correct but i need to work more to make her fingers posture correctly). This may take upto 2 to 3 months. I will use different methods accordingly to achieve it. (10 min)
- 2) Finger exercises of Hanon or Czerny accordingly. (10 min) This is an exercise to make the fingers strong. Why I am taking 10 min? These exercises seems to be simple while reading it but as we play, I need to supervise it to make the techniques correct.
- 3) Sight reading lessons (10 min)
- 4) My Lessons (10 min)
- 5) AMEB Lessons (10 min)
- 6) Music Theory (10 min) - I can schedule the lesson after she completes her online theory class.

After one month she will be able to understand the correct technique to play Hanon or Czerny exercises, so I will get more time to check the other lessons. Because, exercises are more important than lessons.

Schedule for Lessons

	Week 1	Week 2	Week 3	Week 4
August	Bohemian Melody	Swiss Galop	Etude in C	Air from Little Russia
September	Cradle Song	Allegretto in F	Waltz in F	Old German Lullaby
