COMPETITOR TRAFFIC (APRIL 17, 2017)

This report compares your website's traffic with that of competitors.

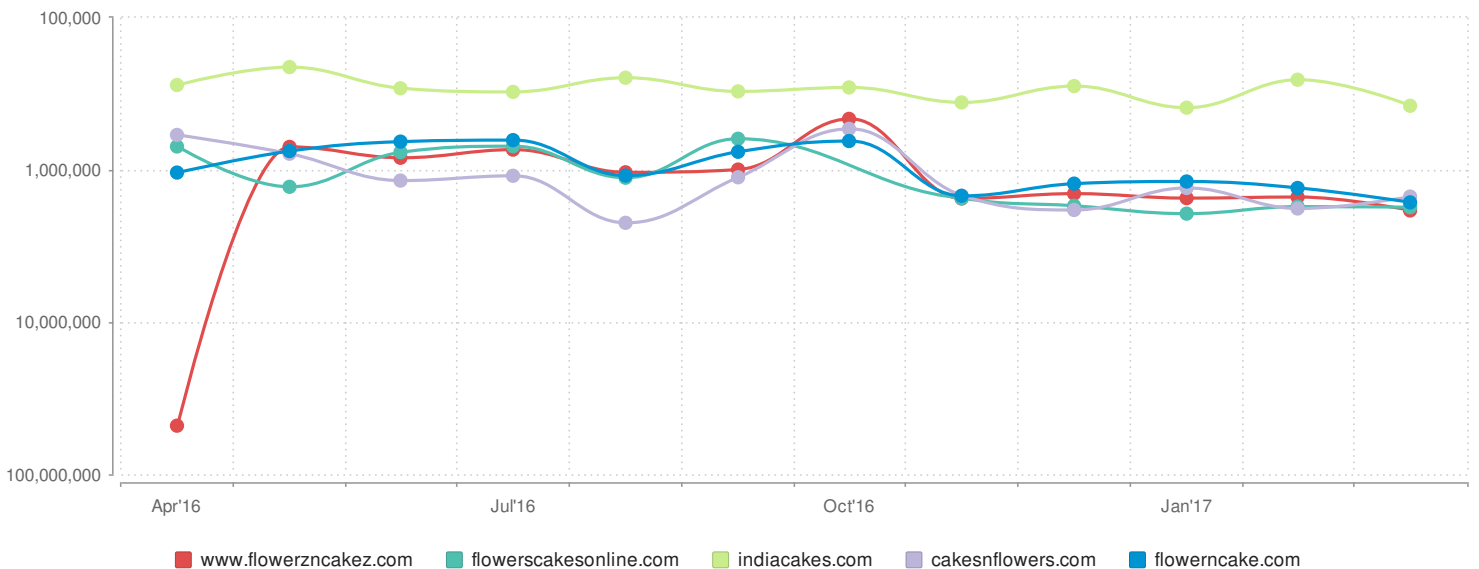

Organic traffic for www.flowerzncakez.com and competing sites for the last 12 months (United States of America)

Alexa Global Traffic Rank History for www.flowerzncakez.com and competing sites for the last 12 months

Alexa's traffic rank is a measure of how popular a website is relative to all other sites on the web.

The rank is calculated from the site's estimated average of daily unique visitors and its estimated number of page views over the last 12 months. The less the rank is, the more popular the site is.

Rewrite duplicate Title tags for 192 pages

Use unique and descriptive TITLE tags across all pages of your site, because duplicate Titles may cause problems with site indexing and rankings. As an option, you may leave the duplicate TITLE tags intact but use a "canonical" attribute on the non-canonical pages to let the search engines know which one is the preferred page.

Remove all but one H1 headings on 1 page

Leave only one H1 that you consider the most important and change the rest to H2, H3, etc., because SEs may penalize excessive H1 headings as a spam technique.

Add ALT attributes to 227 images

Image ALT attributes enrich website usability and return images in relevant search results due to enhanced site SEO. Image ALT attributes help search engines and visually handicapped people to determine what an image is about and how that might fit into the subject of a web page. This attribute provides alternative information for an image also in cases where there is a slow connection, an error in the SRC attribute of the page.
