TEACHERS' JOURNEY #3

Alliance Française

Madhavi Mangalana

I started pursuing French studies at 17 in 1994. My first French class at AFH was so inspiring that I instantaneously decided to become a French Teacher at the AF.

Post Diplôme Supérieur in Literature and Civilization, I attended a rigorous one-month teacher training at the AF Madras, and achieved my dream of becoming a teacher at AF in 1998. Ever since, my journey as a Teacher, strengthened by a Bachelor's degree in Avignon and a Masters degree from EFLU, never stopped throwing at me diverse opportunities both at the AF, the Corporate world and now as an entrepreneur.

After getting a certificate in Business Translation from the AF Paris, I had the privilege to head the Cellule de Traduction at the AF - Hyderabad, streamline its operations and ensure sustainable customer satisfaction.

At one point, I paused my professional life to pursue higher studies in Management from EDHEC (Nice, France) which offered me the possibility to lead Finance Operations offshore for IBM France.

I am still passionate about French and have not stopped learning... For me, French was, is and will be a game-changer.
