## #1—IT COSTS LESS

Well it does cost less for, compared to what you get, these classes are on a one –on-one basis that means you get my full attention and complete notes and study materials that I prepare myself

## #2—EASIER ATTENDANCE

With the given traffic and climatic conditions, you know how difficult it can be to get class, If you take classes online, attending is as simple as opening up your computer or tablet. No traffic woes and no travel fatigue.

## #3—THE COMFORT OF YOUR HOME

This is the best part, you don't have to be worried about anything, and you take these classes in the privacy and comfort of your home, if you want to attend the class with a soft music in the background, feel free to do that.

## #4—EASIER TO FOCUS

When you take a class within the comfort of your home, that becomes a stress-free class and a stress-free class becomes an easy to focus class.

## #5—YOU CAN KEEP A RECORDING

Now this is the best part, all your classes are conducted on high end meeting software, means you not only attend an HD quality class, you also get a recording of it in HD, You can use these recording for future reference.
