# Tableau: Fifth year as a Gartner Magic Quadrant Leader

Gartner and Their Magic BI Quadrant

Tableau, a global leader in visual analytics, In current year Gartner, Inc. has announced that has positioned Tableau as a Leader in its 2017 Magic Quadrant for Business Intelligence and Analytics Platforms report. This is the fifth consecutive year that Tableau has been name a Leader. In addition, Tableau was positioned the highest for Ability to Execute for the fourth consecutive year. Tableau believes this recognition establishes the analytics software as the first choice in the industry.

This clearly shows different BI platforms to give consumers a fair look at which BI platforms are truly the best.

Tableau Keeps Delivering

	2017	2016	2015	2014	2013	2012
Execution Rating	100%	100%	100%	100%	93%	96%
Vision Rating	74%	72%	63%	86%	47%	44%

If you've seen Gartner's Magic BI Quadrants in the past few years, you know that Tableau has largely remained at the top for awhile now (with a little dip last year). While others have jockeyed back and forth for position, Tableau has stayed well ahead of the pack. To help you see how each platform has progressed from year to year
