

Wizards Framework

Xxx Presentation

January 2008

Aspirations and Challenges

Organizational Aspirations:

- ⦿ Automate processes and policies to improve efficiency
- ⦿ Remain agile with business process and policy management
- ⦿ Leverage common core of process and policy best-practice
- ⦿ Allow local specialization to capitalize on organization intelligence

Organizational Challenges:

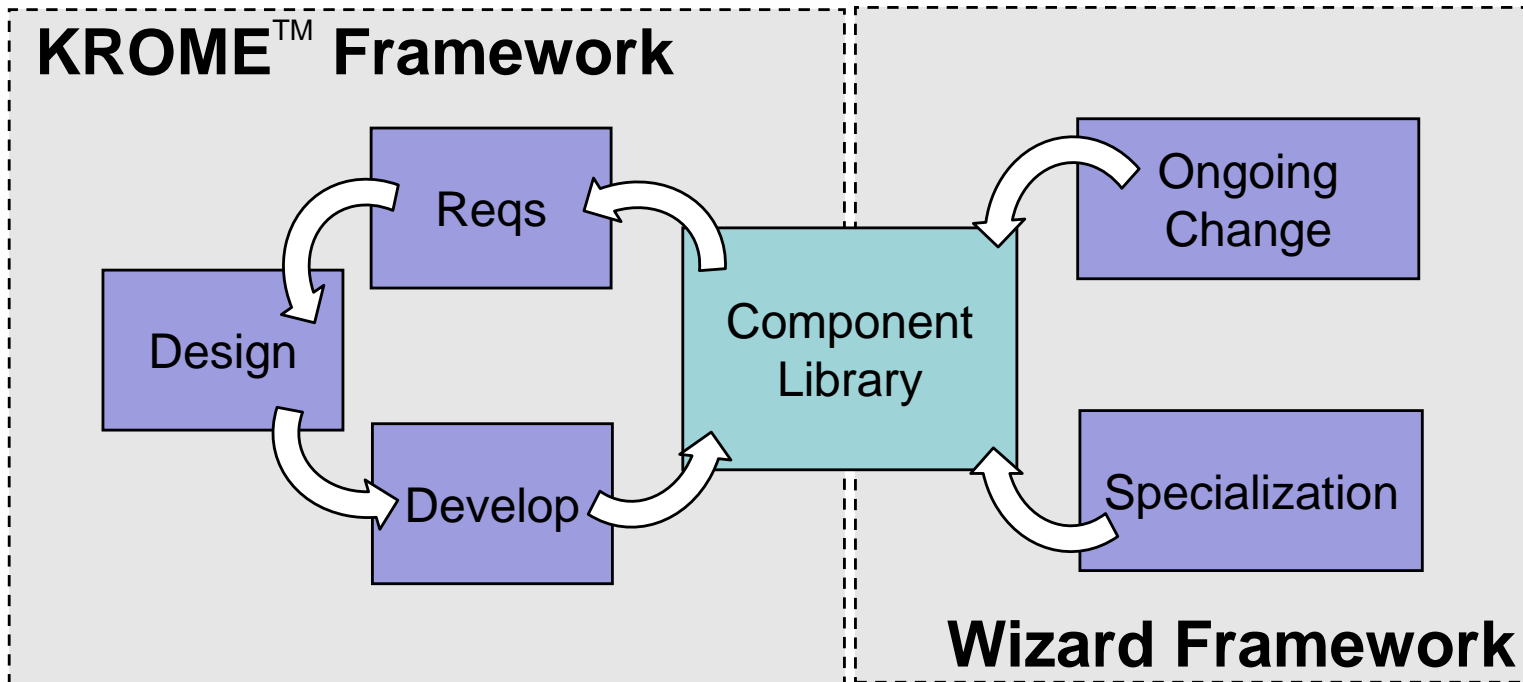

- ⦿ Automation hardens process/policy making change costly
- ⦿ Exposure to risk of change forces slow, risk-reduction approach
- ⦿ Business intelligence hard to 'pin down'
 - New practices expose too much personal risk
 - Radical thinking has no way to **“fail fast, cheap”**
- ⦿ Cost of maintenance consume IT budget limiting innovation

BPM/Rules Framework

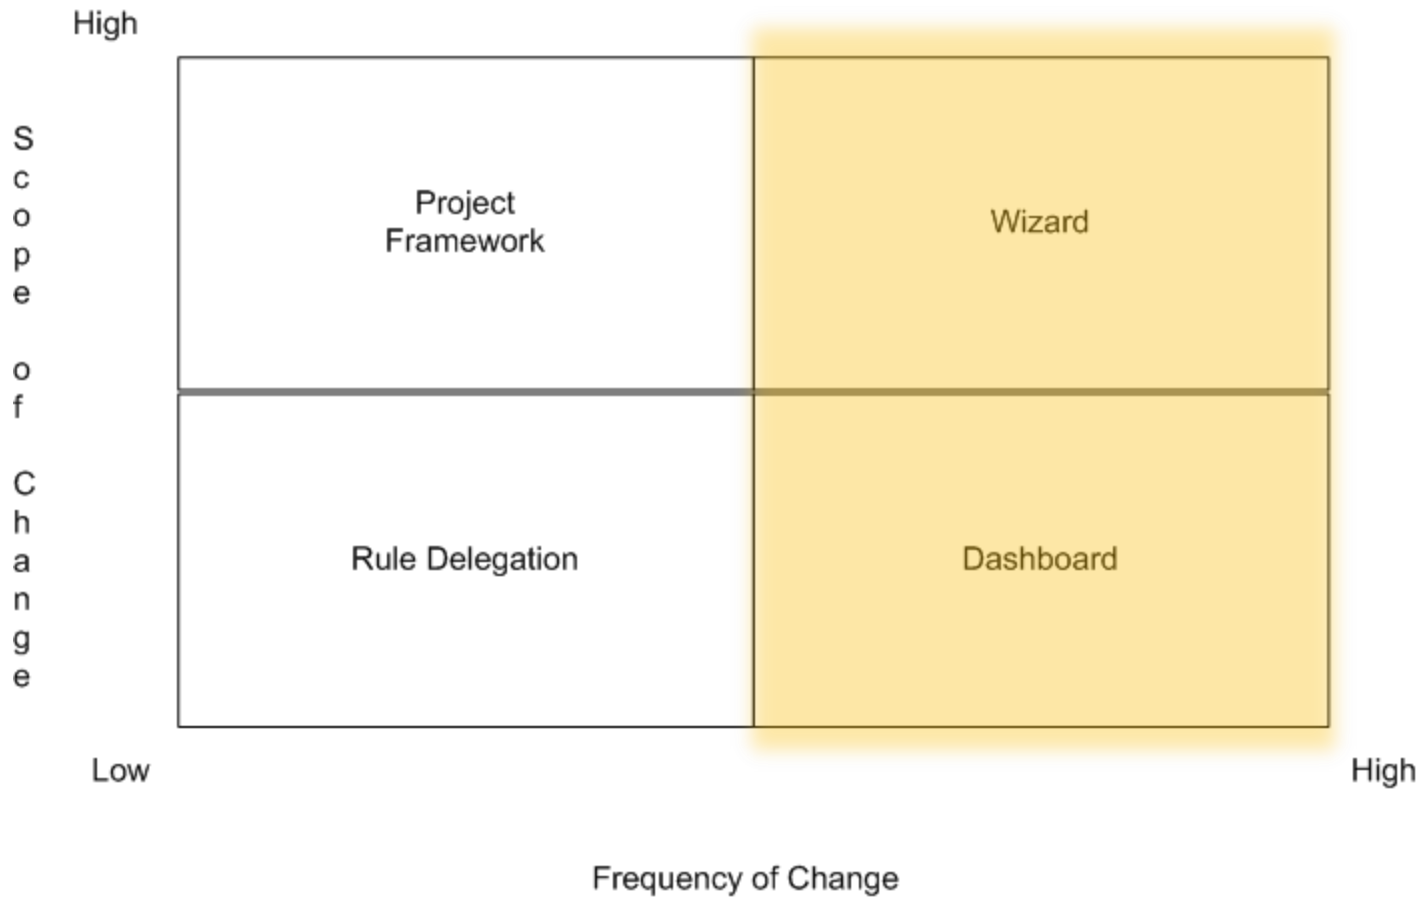

BPM-enabled enterprise needs a Framework

- Inform composition of IT Project Portfolio
- Guide business in framing opportunities
- Reduce implementation uncertainty
- Focus organizational learning
- Reap reuse and efficiency
- Simplify staffing

Support Enterprise Rules SDLC

Change Adaptation Patterns

Change Adaptation Patterns

Wizards

- ⊙ Administrative Applications
 - Rules-driven BPM to increase control
- ⊙ Custom interfaces in business's lexicon
 - Minimize training of SMEs
- ⊙ Maintain PRPC Rules implementing behavior

Control Panels

- ⊙ Custom controls and reports
 - Graphical manipulation of key policy thresholds
- ⊙ Maintain PRPC Constants underlying Rules

Repeatable Pattern
