

GAYATRI TUITION

Ist to Xth Standard (SSC, CBSE, ICSE)

Tuitions

- # Tutoring is like home schooling. Students who lack behind in school can get help at home from the tutor with different subjects that require assistance.
- # Tuition offers one to one interaction between the tutor and the student. This undivided attention proves to be beneficial for the students requiring complete focus and attention of the tutors to solve their queries and get their concepts clear.
- # Tuitions enable students to ask about their doubts without any hesitation. The personalized attention also helps the tutor to understand the weak areas of the students, offering them the specialized guidance required.
- # The best part of tuition is parents can monitor the progress of the child and directly remain in touch with the tutor for the feedbacks. The involvement of the parents in their child's studies enables them to directly remain in touch with the tutor and the lessons being taught.
- # Tuition proves highly effective for slow learners.

Coaching Classes

- # Due to overcrowded environment students reduce concentration in coaching classes.
- # The students cannot get the personalized attention of the teachers.
- # In coaching classes parents cannot monitor the progress of their children.
- # Weak students, having low grasping power lag behind. They require more attention which cannot be availed in coaching classes. Also, they might require special guidance or unique procedure of teaching which is unattainable in this method of the speed of teaching and learning is another problem for Weak students.
- # Sometimes the quality of education also deteriorates owing to huge student population.
