Tyres

Dining Table

Spoon

Clay pots

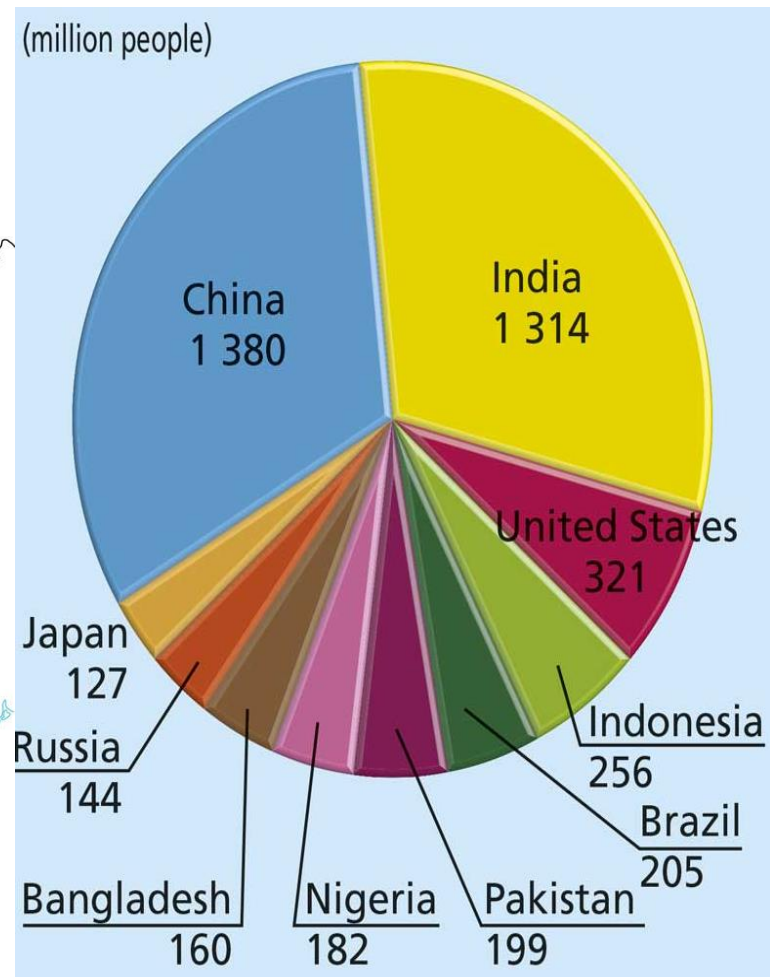

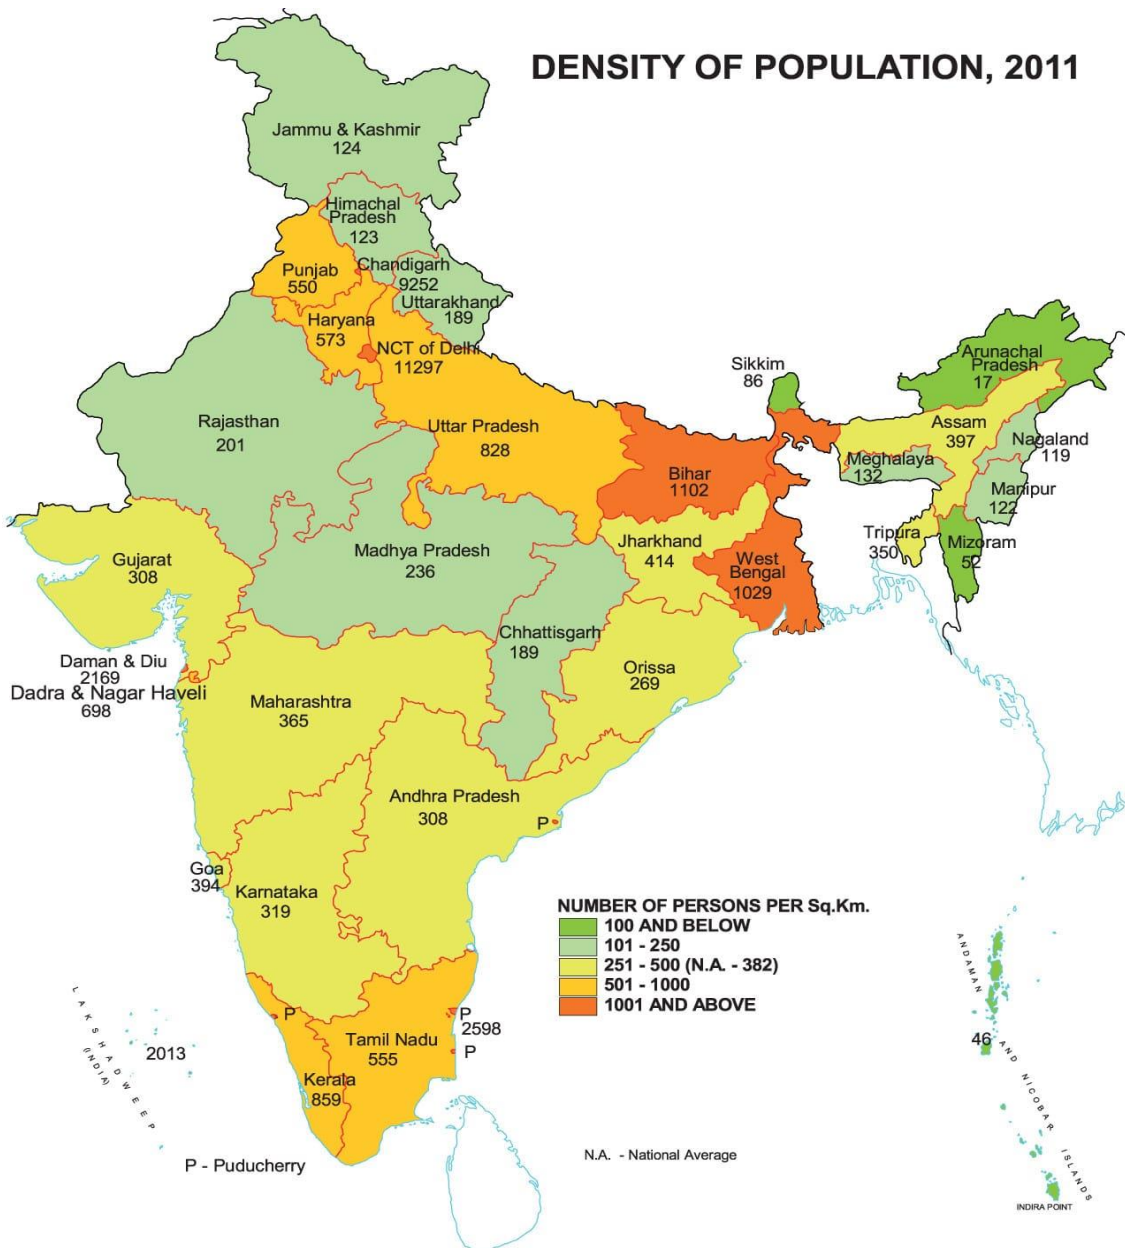

Statue

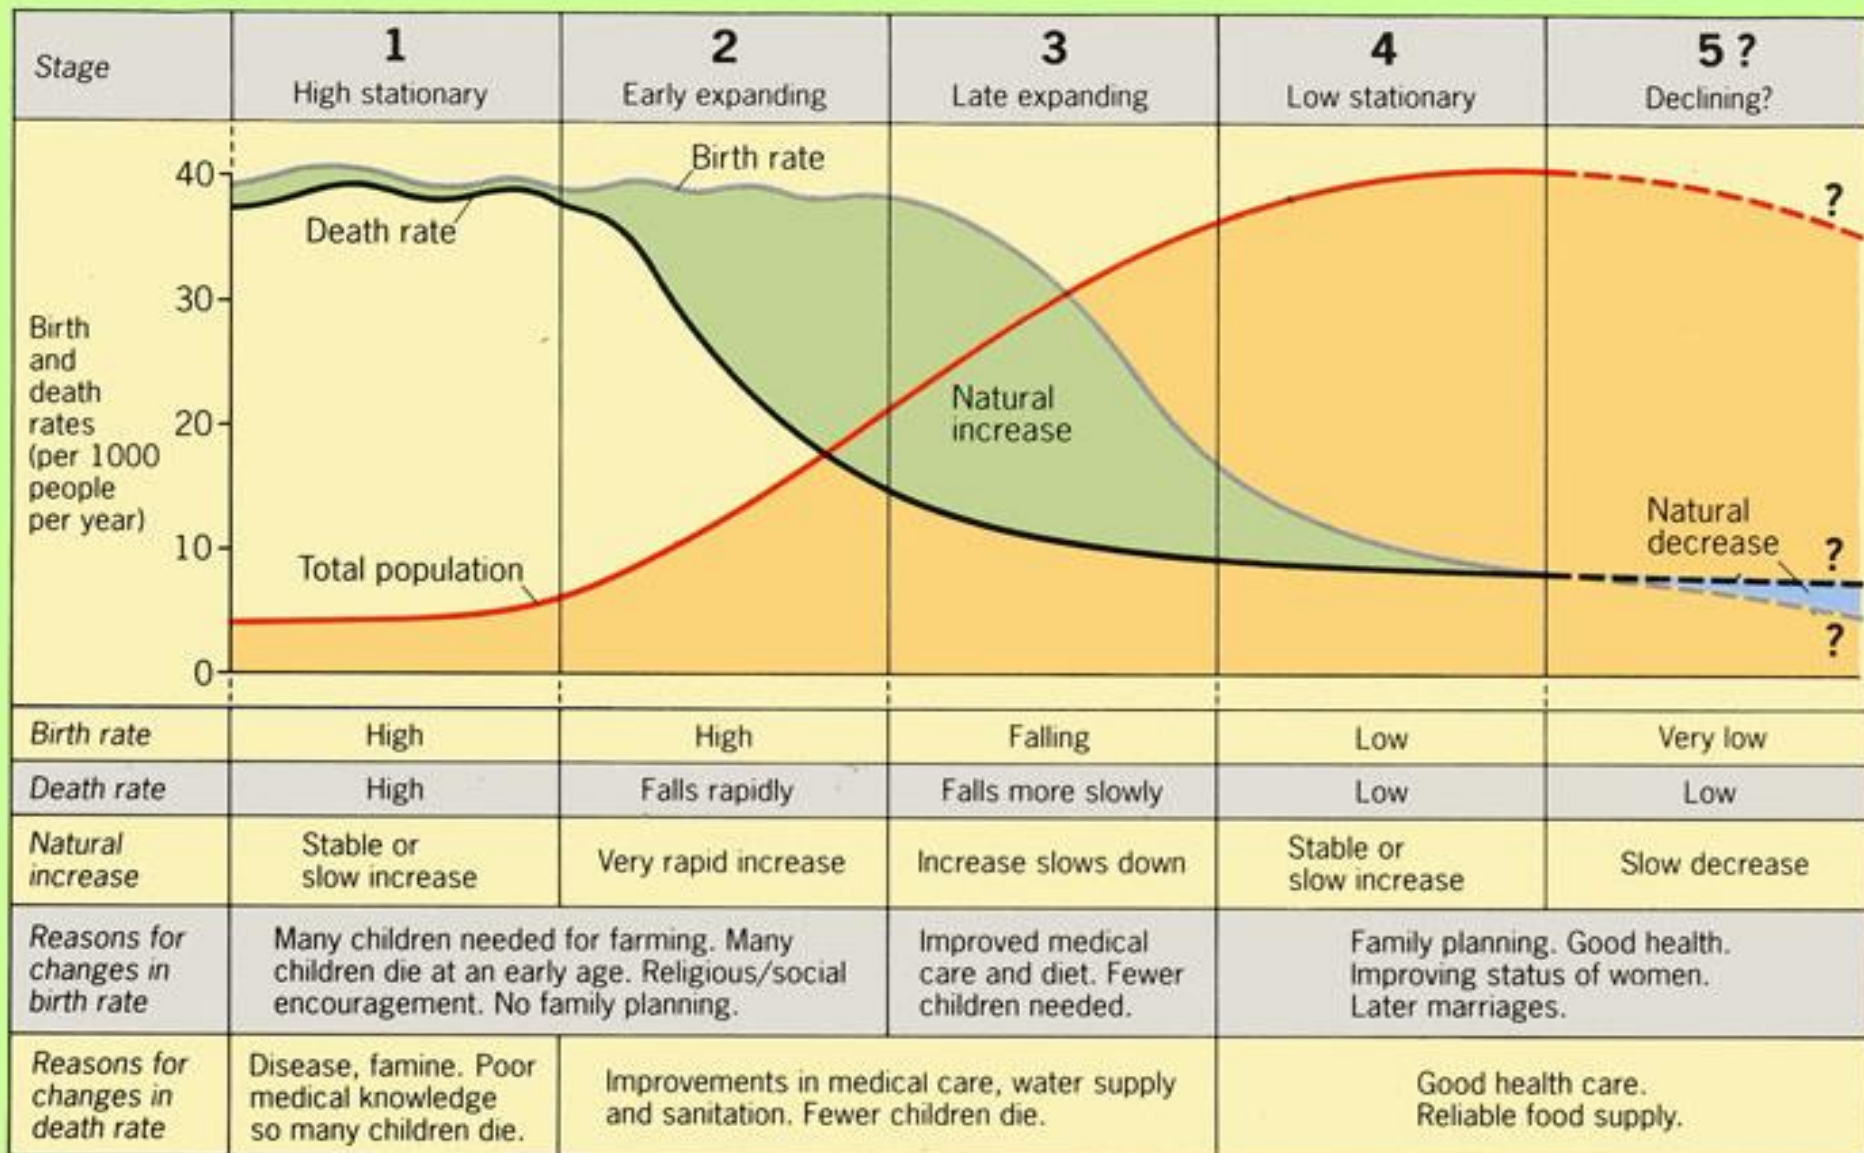

# Population density

- **Arithmetic density=total population/total area**
- **Physiological density=total population/net shown area**
- **Agriculture density=total agricultural population/ net cultivated area**

# Population density & distribution

# Demographic transitional model

1.Period of stagnant growth(1901-1921)

2.period of steady growth(1921-1951)

3.period of rapid high growth(1951-1981)

4.period of high growth with definite sings of slowing down(1981-2011)
